

NO

NEVER wash spilled chemicals, oil, grease, trash, vehicle fluids, or any other liquids or materials into the storm drain!

SPILL SOMETHING?

NOTHING BUT RAIN DOWN THE STORM DRAIN

YES

If a spill occurs, soak up the spill using dry, absorbent material (such as Oil Dri or kitty litter) then sweep it up and dispose of it properly. Use secondary containment to prevent spills!

STORMWATER RUNOFF IS NOT TREATED

and is the leading source of water pollution in our community. Runoff flows directly from the storm drain into local creeks and rivers.

Many business activities can contribute to stormwater pollution. YOU can help keep pollutants out of our creeks and rivers and reduce the hazards to people and fish!

Remember - Nothing But Rain Down The Storm Drain.

To report a spill, call 425-XXX-XXXX.
