

Q1 1. The district has already invested in the high school stadium/fields/track, baseball/softball fields, tennis courts, and an expanded gymnasium to support of a variety of athletic programs and physical education opportunities. Would you support the district making an investment, as a partner in a pool, to offer students aquatic activities?

Q2 2. Due to efficient management of our recent 2015 bond, the district may have some unused funds available. If we were able to use some of these funds, we would not require additional local school taxes to make an investment in an aquatic facility. Would you support using these funds, if available, to make an investment in a local competition-sized swimming pool?

Q3 There are various levels of investment and opportunities available with community partners using capital funds. (The district's capital funds can be used for building or expanding facilities, or purchasing portables or land. Capital funds are not used to pay staff salaries, purchase curriculum, and operate our buildings.) Please indicate your level of support for the following aquatics components. Each element would be an incremental increase in cost, starting at approximately \$2.5 million and increasing up to \$5 million for all components. Please rank the following options 1-5, 5 being highest as to the importance of this element to you:

3. Participate with partial funding of a competition-sized pool to ensure there are at least six lanes and to allow for exclusive after-school use for high school swim team practice and meets.
